

This is My ISAGENIX Story !

My friend, who is a Registered Nurse, approached me with a new product called Isagenix. I thought it sounded good for the money. I was thinking, after listening to her tell me about all the people who felt better and had more energy after being on the product, that if Isagenix could help me regain my energy level, it was worth the cost. I had everything to gain and nothing to lose. In nine days I lost 10 pounds, had plenty of energy, and achieved this level of success even though I ate more than the 600 calories recommended per meal.

Once again, I was my usual self - to bed about midnight and up at 7:00 am. I was impressed. I have continued with this program and from July 2nd to September 15th - I've lost 27 pounds and over 28 ¾ inches. That averages 2.5 pounds per week ! My doctor is impressed !!

Before being introduced to Isagenix, I was concerned not only about my health but how was I was going to continue working as a dog groomer. I knew if I didn't have the energy to get out of bed and go to work, I would need to find another job. My friend told me about the business opportunity offered by Isagenix but I knew in my heart I couldn't promote any product unless I knew it worked. Isagenix works !! I now tell everyone who will listen about Isagenix.

I believe that every person young or old should be on the Isagenix system. If it can make me feel this good then imagine what it can do for you. I'm looking forward to the day I can really put it to the test to see what I can lose if I follow the nine day program as it is suggested.

I highly recommend everyone try this product. Cleanse the body, lose weight, feel great and even make money while you do it. It doesn't get any better than this.
