

This is My Isagenix Weight Loss Story

Released 67 Pounds and 56 Inches !

My name is Susan Schweitzer and I live in Wind Lake, WI. Being a wife and a very busy mother of two young boys over the past 10 years, *my weight was climbing along with my age*. After trying to get into my one and only pair of jeans that I owned for the last 8 years (they just would not zip) ~ I cried. I knew I had to take control of my weight. I was not going to buy a bigger size.

I also work outside the home in a professional setting and constantly need to keep up a business wardrobe. When I was introduced to Isagenix through a friend, I had some doubt if this would work or if it was just another fad diet.

I tried the 9-Day Cleanse and couldn't believe I lost 12 pounds ~ and it was incredible to see the inches fall off. I kept going by ordering a 30-Day program and have been on Isagenix for a year now. **I am down 67 lbs and 56 inches !** Thank you Isagenix !

The real score for me is I have taken on a new responsibility for myself which I didn't have before. I was always responsible and in charge of everyone else. I never came first. NOW I DO.

I feel absolutely wonderful. I have more energy, my skin looks great, I am down four sizes and the wardrobe has been replenished. I walk at least 2.5 miles per day. For once, I can't wait for the Holiday parties.
