

This is My ISAGENIX Weight Loss Story

Hi. My name is Winston Chan. I live in Montreal, Canada.

I did try many products to lose weight before, but I could not find a fast and effective method to lose weight healthily and painlessly. Usually, the products are either too unnatural, unhealthy or too demanding for a normal human being.

The reason I tried Isagenix is because of its **SHORT** regimen . . . and its **product theory** . . . elimination of impurities (cleansing the body) which I found to be both reasonable and acceptable. I committed to try this program for 9 days.

After the nine days of the Isagenix Cleansing Nutritional Program - I felt like a new person. I also found that I really wanted to become a better me - by eating healthier and staying in shape as I do not want to be the fat one again. I completely changed my eating habits and I will stay away from oily food from now on.

I did not feel any discomfort . . . no diarrhea or vomiting - unlike some other slimming products.

I was thrilled by the results of this program as it really worked. I have not tried any other slimming treatment that worked so painlessly and without discomfort. I surely recommend this product to everyone and I will continue to use the Maintenance For Life Program.

Do you have 9 days to become a healthier and better you ?

*Winston Chan
