This is My ISAGENIX Weight Loss Story

BEFORE
ISAGENIX CLEANSE

AFTER
ISAGENIX CLEANSE

My name is Andy Li from Montreal, Quebec in Canada. Being Chinese, the concept of cleanse was not unfamiliar, but I was skeptical. My mother in China has periarthritis and she has been taking cleansing products for over two years, but to no avail.

I came to know the Isagenix 9-day Cleansing Program purely by chance – and its "9-Day commitment" aroused my curiosity. I was quite familiar with health products but had not heard of any company that openly promised visible effects in nine days. I decided to give it a try.

Since I didn't consider myself as "fat", I wasn't really looking for a way to drop 5 -15 lbs. fast. What attracted my attention were the things I had read in a best-selling book about cleansing.

I followed the Isagenix 9-Day Cleansing and Rejuvenating System very strictly, hoping to feel healthier after that. Much to my surprise, within the 9 days, I didn't feel less energetic. On the contrary, I felt much more dynamic, more relaxed and my mind was more alert. I had no cravings for food at all. And, on my right leg, there were a few patches of skin that had been discolored for 15 years. I noticed that during the cleansing period, those patches turned red, then itched, swelled and trickled pus. I imagined that might have been the "reaction of removing impurities from the body" - the real benefits of cleansing. Overwhelmed, I told my parents and friends about these amazing products - which started my happy journey to building a successful Isagenix business.

What touches me most are the on-going benefits of using the Isagenix cleansing and nutritional products – especially the increased energy. Isagenix has now become an integral part of my life. The first thing I do in the morning is to take an ounce of Ionix Supreme; then an Isagenix Shake for breakfast – along with my other Isagenix Nutritionals. This is my long-term plan for maintaining good health. I thank Isagenix with all my heart.
