

This Is My ISAGENIX Story

Before I had my weight problems, I was a professional musician and singer and was very active and agile. In my early 30s, I stopped smoking and started to gain weight.

I tried many diets and weight loss systems but nothing worked. My weight continued to balloon out of control. Because of my weight gain, I found that I was unable to continue playing and singing as it unfortunately seriously affected my breathing and my voice.

I had to change careers and I became a custom home-builder. By my late 50s, I had problems climbing stairs and doing any physical labour at all. I was reduced to going into my business for only 2 hours every second day and became very depressed.

In January of 2005, I asked one of my doctors “was it going to get any better for me” and she answered “no”. That’s when I decided to look for something to help me. I thank the dear Lord above that I found ISAGENIX and started on my first Isagenix 9-Day Cleanse.

On my first 9-Day Cleanse . . . I lost 21 lbs and 10”. I felt my energy coming back. I have since completed 5 more 9-Day Cleanses and I have lost a total of 58 lbs and 36”.
I feel wonderful.

Recently, I had to see both my Specialists for checkups and they were extremely pleased with the results I’ve had from the cleansing. I no longer have to take blood pressure medication or medications for my joint pains. My energy level is unbelievable and I’m feeling incredible. I thank the genius of John Anderson every day for these incredible products that have truly given me my life back.
