I tried many diet programs that did not work. I was very skeptical about trying the Isagenix Nutritional Cleansing Program . . . I figured it would just be another dissappointment. To my surprise, I fell in love with the products right away . . . I knew that this time it would work for me. I started at 287 lbs and am now 143 lbs . . . and still going strong. I am a single mother with a young son and I now have the energy to keep up to him.
