

## This is My Isagenix Weight Loss Story !

My name is Karen Eigler and I am extremely grateful that I was introduced to Isagenix full body cleansing technology!! My Before picture is a pretty good reflection of how I was feeling when I heard about Isagenix. When I look at this picture, it reminds me that I was only 41; however, I felt like what I imagined a very unhealthy and failing 65 year old body might feel like. I was utterly exhausted and not coping well with even minor stressors. My body felt as though every step of every day was a battle and I was extremely frustrated because I actually did take good care of myself.

I was very active. I ate the right foods and yet I carried around an additional 60 lbs of fat on my very fatigued body. Mentally I had begun to feel numb.

Within a very short period of time of cleansing and nourishing my body with Isagenix, I could feel my life force beginning to rise within me. I got color in my face again. My energy levels began to increase rapidly. I started to feel jazzed about life again and my body was transforming before my eyes! Now take a look at my After picture which is 3.5 years later !

I feel fabulous. I radiate vibrant health. My eyes are full of life and I feel like a young thirty something. **I reduced from a size 18 to a size 12 which is perfect for my 6 ft tall frame. I have easily kept this off for the last 3 years with the Total Health and Wellness program. Isagenix is simply a permanent part of my grocery list and is what I term as very healthy convenience food.**

Another very exciting benefit . . . I get paid bonuses because I care about others and share with them my favorite solution for wellness. I cannot thank Isagenix enough for massively improving the quality of my life !
