

This Is My ISAGENIX Story

My friend Fred Vokey invited me to a Support Group Meeting where the Isagenix products were being introduced. I've known Fred for a few years and when I saw him I couldn't believe my eyes. He lost so much weight and looked so much better. Needless to say it grabbed my attention. During the meeting I learned all about the products and how they work.

I was impressed but there were a few questions I needed to get answered. The most important thing to me was if the products contained any harmful substances that you hear about in other weight loss products – like Ephedra and Ma Huang. But after reviewing the ingredients and looking at the website, I decided to place an order.

I started on June 18th 2003 and by the end of my first **9 Day Program** I had lost 17 pounds and 15.5 inches. Needless to say I was pleased, and continued on the program. Then by the end of **one month** I had lost 33 lbs. and 24.75 inches.

Losing the pounds and inches was very exciting because being overweight had caused other problems – including snoring. I snored so loud that I think, I even kept the neighbors awake.

So here's the best part...

My family, almost right away, noticed that I do not snore any more !

My goal is to lose another 30 pounds. What is also very exciting is that my 2 daughters also got great results using the Isagenix system.

My oldest daughter lost 11 pounds and 18.5 inches on her first 9 day program. Now she is on the maintenance program and has maintained her weight – and she has lost a few more inches.

My younger daughter dropped 20 pounds and 35 inches in her first month on the program. The girls are feeling better about themselves and have lots more energy.

I am very happy to say that Isagenix has changed my life for the better. I am losing weight, I look better, I feel better, I have more energy and there is no way to explain how good I feel ! I just have one question . . .

Is it legal to feel this good ?
