

This is My ISAGENIX Story

I am originally from mainland China. I am finding that the Asian physique often responds very dramatically, quickly and visibly to the Isagenix Cleanse. Just look at my Before and After pictures !

I used to love doing workouts and I used to have a physical body to be proud of. However, as I get older and my lifestyle changes, the signs of age start to appear physically. These signs became more obvious since I started my own business a few years ago. My routine changed. Going to bed became late and so did getting up. Entertaining people kept my day long - and snacking at night became normal. When I looked at myself in the mirror, I saw a plump, middle-aged man sliding further and further away from the image of a fit, young man.

My family and friends reminded me from time to time of the changes they saw in me - yet trying at the same time not to hurt my feelings . . . ***“For a man, inner beauty is more important than outer appearance,”*** was their consolation. Worst of all, I started to feel the aches and pains in my back and limbs. I felt tired all the time as if I never had enough sleep. My energy level was low. I was only 33 and I may have another 50 years to go (if I'm lucky). What should I do ? Thanks to the Godsend product – Isagenix ! With some doubt in mind, I started on the 9-Day Isagenix Cleansing Program. The feeling was fantastic !

I lost 9 pounds the second day ! My wife and I couldn't believe this miraculous effect and we thought that our scale was playing a trick on us. **After nine days, I lost 12 pounds.** I felt relieved and **I looked ten years younger.** I looked in the mirror in the morning and said to myself . . . ***“Outer beauty certainly counts !”*** The best thing about this program was that I didn't miss a day of work. I felt light-hearted.

Everybody was amazed to see me in such good shape. They wanted to know what was the “secret”! I have never felt as self-confident as I am now. I recommended the Isagenix Program to my colleagues and friends and in one week - I enrolled more than 30 people into Isagenix (including my sister and cousin in Vancouver). They are now enjoying their journey of wonder too.

I believe this is only the beginning of my Isagenix story. More exciting events are awaiting me. My friends - although we don't know each other yet - I'm sure your feeling will be the same. I wish that the story of Isagenix would happen to you and many more people.
