

This is Our Isagenix Weight Loss Story . . . 200 Pounds (Combined) Released !

Mike and I first joined Isagenix back in January 2007 at the urging of my mom who had been having wonderful success with the program. Skeptical but hopeful, we gave it a shot. We initially had great success. Over 3 months Mike went from 259 lbs to around 225. I went from 290 down to 250. We were ecstatic with the results and loved the taste and convenience of the products. But we were not willing to commit to changing our lifestyles at that time . . . and so the weight crept back on over the ensuing years.

In January 2011, we decided to embrace and commit to the Isagenix system. There were medical issues arising with the lifestyle that we were leading. We knew Isagenix worked because, back in 2007, we had great results and, better yet, we had felt amazing. We were NOW ready to COMMIT to changing our lifestyle. The weight started flying off and we started feeling better. Over the following weeks and months the weight continued to drop, and our doctor weaned Mike off of all three of his medications. At our 6-month follow-up with our doctor, we were ALL pleased with the health results.

We challenged ourselves to make the 100-pound club and attend the Isagenix Celebration in August. We thought it was an ambitious goal - but we went for it anyway. In August 2011, we committed to a permanent lifestyle change - and BOTH of us achieved our goal - and released 100 pounds EACH !

We now realize (as we always knew, deep down inside) that Isagenix is NOT a diet. It's a LIFESTYLE. We will be on the product for the rest of our lives (which, given the introduction of Product B, will be a VERY long time). We are truly grateful to Juanita Shay, who sponsored and mentored us - along with another great lady, Barbara Lohnes - and to Larry Fuchs and the associates in the IsaBody Accountability Group (especially Gina Mote - whose marketing calls were instrumental in leading us to that group). Thank you also to Jim & Kathy Coover and John Anderson for making Isagenix the fantastic product, company and family that it is.

Most important of all, we will be eternally grateful to my Mom, Mary LeBlanc, for being strong enough to ask for something for herself and imploring Mike and I to join Isagenix. In doing that, you may just have saved our lives. Thanks Mom.

Kelly Leblanc and Mike Loux - Maine
