

**THIS IS MY ISAGENIX STORY
RELEASED 44 POUNDS ~ 8 POUNDS BELOW GOAL WEIGHT**

BEFORE ISAGENIX CLEANSE

AFTER ISAGENIX CLEANSE

In August of 2009, I was sitting on the second step of the stairs and found myself out of breath while doing up my shoelaces. By the end of October, I was able to run up the stairs without even realizing that I had done so.

In just over two months ~ I felt more energy, pep, and alertness than I had felt for a very long time. People with whom I work have commented . . . not only on my obvious weight loss ~ but on the new glow in my eyes and the clearness of my skin.

I went on to release 44 lbs and am now 8 lbs below my goal weight and am on one of the ISAGENIX maintenance programs since November of 2009 and have maintained my new body.

I did not realize the effects of the impurities in my body and overall health. I am so glad that I have discovered this amazing, affordable, cleansing system.

As people began to notice, they asked me what I was doing. I shared my story and told them about the products. Most of the people I spoke with wanted to do the same, and so I signed them on.

So, now I am also receiving a regular residual income which is increasing gradually. It is only a matter of time before I reach financial freedom. This will mean that, although I love my current job as a teacher, I will soon be able to take early retirement so that I can spend more time with my family and friends, and choose to do what I want, when I want. Now, that's true freedom!

It is my desire to share the benefits of health and wealth with as many people as I can.
