

## This is My ISAGENIX Story

**BEFORE ISAGENIX CLEANSE**

**AFTER ISAGENIX  
CLEANSE**

About two years ago, my weight shot up above 400 pounds. I reached a point when it was hard to climb upstairs and my blood pressure was too high. My Doctor told me to lose weight or risk dying before I reach 60.

We had just moved into a condo next to a very energetic young couple named the Stott's. My wife became friends with Jodi Stott and told her about my health problems. Jodi suggested my wife take an audio tape home and some literature to read about Isagenix. My wife, Barbara, was so intent on my getting well and losing the weight, that I gave in and tried the Cleanse . . . and the 9-day cycle worked !

**I lost 28 pounds, 23 inches, and 3 pant sizes.** The weight just dropped off after my second Cleanse and my doctor couldn't believe it. **I have lost over 100 pounds so far and I feel better physically and mentally that I have felt since I was in my thirties.**

I recommend the Isagenix way of life to everyone I come in contact with. It's great . . . and I never want to be unhealthy and overweight again.
