

## This is My Isagenix Weight Loss Story

Just to give you a little bit about my educational background and experience ~ I have a BSc in Chemistry, a Masters in Pharmaceutical Sciences with emphasis in Medicinal Chemistry and a PhD in Health Administration. I worked in the Pharmaceutical Industry for over 17 yrs with 5 companies ~ first as a Synthetic Chemist, making pharmaceutical drugs from scratch ~ to being a Regulatory Affairs Liaison between the company and the FDA. So I worked to get the drugs approved on the market.

Isagenix was initially introduced to me in 2005 by Rose Pylidis. I told her I had no interest because my life was very busy as a single parent with 2 kids, working on my PhD and also working as a regulatory professional, traveling often and very stressed out. About six months later, Rose and her husband Elias were back in Florida on their way to a cruise with Isagenix leaving from Fort Lauderdale. They invited me to an Isagenix presentation at the hotel and to meet the Coovers. At that point, I was done with my dissertation and was in a better mindset and figured it would be an opportunity for me to spend some time with them anyway before they left on the cruise. Also at that point in my life, I was 65 lbs overweight and had some health challenges and certainly needed more energy. I thought it couldn't hurt to listen.

After listening to the presentation, I was so impressed that I decided to do my research on the ingredients. I also decided that I would try the 30-Day program because they were such great friends of mine. Being the skeptic that I was, I contacted my doctor and told him what I was about to do and asked him to monitor my blood work at the beginning of the 30 days and the end. He agreed.

I also decided to order two extra bottles of the cleanse drink, so I would have enough product to do two 9 days back to back using the 30 day program. So I did the 9 day program twice. Well, by the end of the 30 days, I had released a total of 22 lbs. My energy level went off the roof. I was sleeping better at night and my stress level went down.

I got my 2nd blood work done after the 30 days and then met with my doctor 1 week later. I took the empty bottles of the products with me to meet with my doctor. As he reviewed my results ~ all he could say was "oh my gosh Kemi ~ whatever you're doing, keep doing it". I asked if he'd like to know what I was doing. He said absolutely and asked if he could review the ingredients ~ and all he could say was "This is all good, Kemi". I continued to take the products using the Wellness Maintenance Pak and added the Accelerator Caps and IsaFlush for 3 months.

**I released 65 pounds and went from a size 14/16 to a size 6 and I've kept it off for 4 over years now.**

I became a walking billboard and people who knew me thought that I looked 20 yrs younger and kept asking what potion I was on. I just send them to my website and they buy the products. What is really interesting is that I started my career making pharmaceutical drugs from scratch as a synthetic chemist ~ and now I teach people to cleanse their bodies of harmful impurities ~ which by the way includes pharmaceuticals ~ and allow their body to be the miracle that it was meant to be. I had become living proof that this product works.

Now for over 4 years ~ I have helped more people to gain their health back just by trying these products. I feel and look the best that I have ever looked. Now I am thrilled to be able to offer Hope to people to improve their Health . . . and their Wealth !
