

## THIS IS MY ISAGENIX STORY ~ A Blessing in SO Many Ways

In 1999, I was diagnosed with breast cancer. I underwent several surgeries and radiation. I recovered from this with an excellent prognosis. However, in January of 2002, I was surprisingly diagnosed with breast cancer again! This time it meant undergoing additional surgeries and more treatment. In the midst of this I began to wonder how I could face a future that seemed full of more physical pain and the probability of being scarred *in addition to* being overweight. It seemed that my life as a young, attractive woman was basically over before its time.

My story has a "happy ending" ~ or should I say a "new beginning?" My body went into the "change of life" at the same time as I was undergoing all of the surgeries. I believe God had shown me that He would "renew my youth" and "satisfy my desires with good things." I held on to that belief and those things have come to pass. I believe God granted me an incredible medical team to produce amazing surgical results. The other thing He did was to bring a product into my life which I began using after the first four surgeries. By that time, I could no longer pull myself up by the bootstraps. I was losing courage and was in despair. Because of the discomfort and stress, it was very difficult to maintain a bright outlook. At the advice of my physician, I reluctantly went on medication to help with that, but I didn't like feeling "not all together there" and some of the other effects the medication caused.

It was at this point that I began using the Isagenix products with their nutritional, cleansing technology. I wanted to lose some weight to help me feel better about my body. What I didn't realize when I began taking the Isagenix products is the effect they would have on my whole outlook. It was after reading Dr. John Gray's newest book, "The Mars and Venus Diet and Exercise Solution," in which he highly endorses the Isagenix products, that I understood what good nutrition ~ and the Isagenix products specifically ~ does to help the body to get healthy.

I lost 20 lbs ~ going from approximately 145 lbs to 125 lbs and a tight Size 11/12 to a comfortable Size 6. From the time I began taking the Isagenix products, my outlook began to dramatically improve. I began to sleep better and I have energy and a happy, optimistic outlook now. I FEEL 10 years' younger than I did and I LOOK 10 years younger too. By the way ~ that is not just my opinion ~ it is also the opinion of many of my friends who have seen the changes in me. It is absolutely incredible.

The weight loss benefits which I have maintained for almost four years now are wonderful and I continue to take ALL the Isagenix products for the health benefits they bring to my life. Because so many have seen the changes in my life . . . people ask ME about the products. I had never sold a product in my life before using Isagenix. I have been involved in Isagenix as a full-time business now for almost four years and it is going INCREDIBLY well . . . beyond what I ever imagined. It is FUN to be able to share something so wonderful with friends and others ~ and earn an income as an added benefit.
